Handsome Residence of the Late Dr. Lassiter Purchased by the Peters. burg Lodge-Boys Sent to the Reformatory.

(Special to The Times-Dispatch.)
PETERSBURG, VA., Oct. 13.—The separation of three small children from their parents in Petersburg this morning was a pathetic scene indeed. They were the son and two little daughters of Peter Inliano and his wife, whose home was in this city at the time of their marriage eleven years ago. The couple separated two years ago. The claim was made that the mother was unable to take care of her children, and the father claimed that the mother would not allow him to do so. The case was reported to the Police Court and the children were to-day turned over to the Rev. W. J. Maybee, of the Children's Home Society. The children were crying for their mother when they left. The woman went to the police station and there said she intended killing herself if the children were kept from her. The father very reluctantly gave his consent for the children to be carried to Richmond.

Pete is a man well thought of by every person who knows him in Petersburg. They speak of him as an humble, submissive and generous, kind-hearted fellow, with a deep love for his little children.

QUEER DEATH

Woman Smothered to Death by Worm in Her Throat.

(Special to The Times-Dispatch.)
FREDERICKSBURG, VA., Oct. 13.—A death occurred a few days ago at Orange from an unusual cause. A colored woman died suddenly, and, suspicion being aroused as to the cause, an inquest was held, and the verdict was to the effect that death resulted from suffocation, caused by a lumbracold worm in the throat.

She and her mother had just returned from milking the cows, and she was expected soon to join her brother at the tchacco barn to strip tobacco. Her mother stopped in one room and the young woman went into another. The report of the gun was heard, and upon entering the room her body was found upon the floor. The gun had been placed against her neck just below the head and the load had torn a large hole entirely through the neck. Death was histantaneous. throat, Ned Ball, white, and Samuel Braxton Ned Ball, white, and Samuel Braxton, colored, became involved in a dispute in Essex county, and the negro pulled a pistol and showed the two cartridges in it, and said he would shoot any one that bothered him. Ball, the white man, said, "I can swallow them." The negro then fired. The bullet grazed Ball's chin, passed through his neck and lodged near the shoulder blade. It was removed by a physician and the wounded man is recovering. The negro was arrested and sent en to the grand jury.

At a meeting of the managers of the tabernacle grounds and buildings in Madlson county, the question came up as to whether the property should be sold or not, and on a close vote it was determined not to offer the property for sale.

The campaign in the Northern Neck for county and district offices has reached an interesting stage. The dividing line

The campaign in the Northern Neck for county and district offices has reached an interesting stage. The dividing line is not so much between Democrats and Republicans as between the "wets" and "drys." The Northern Neck is a dry section, Colonial Beach being the only place where there are licensed barrooms, and the vote at that point will be strong for the wet candidates. Most of the regular nominees are advocates of the temperance cause, but there are a number of independent "wets." It is stated that the fight for the office of Commonwealth's attorney in both Westmoreland and Lancaster counties is along the line of saloon or no saloon.

The campaign in this city is an exceedingly quiet one, as only two offices are to be filled at the coming election on November 3d, viz: a delegate to the House of Delegates from this city and Spotsylvania county and a treasurer of this city. Mr. R. T. Knox, the present incumbent of the latter office, is a candidate for re-election and has no opposition. Hon, J. H. Biscoe is the Democratic nominee for the House of Delegates, and is opposed by Mr. M. H. Dickenson, of Spotsylvania, who is running as an independent candidate.

BOYDTON, VA., Oct. 13.—Colonel John S. Cuningham, of Person county, N. C., addressed a large gathering of farmers and others interested in the cultivation of tobacco in the courthouse here yested and the speeches made were well received.

Colonel Cuningham spoke with much earnestness, urging the planters to diversify their crops and to pay more attention to the raising of meat and bread. He said the low price of tobacco was a serious matter to those who had wives and children dependent upon them for support. He said that the present prices of tobacco were below the cost of production.

He also advised that the people of Virginia and North Carolina petition the President of the United States, through their Senators, to deposit money in the banks of the said States to assist in moving the crops of tobacco, as has been done in the Western States.

The meeting adopted resolutions stating that from the best information obtainable the present crop of tobacco was an average one in quantity, and of superior quality, and urging the farmers in the tobacco growers and elect delegates to a solution to the carbing that from the best information obtains the country of the crops of tobacco, as has been done in the Western States.
